

High-tech lab school

Concept

Our school offers maximum comfort while studying which helps students accept learning

The price is not the highest and all children are welcome

We aim on making students more comfortable with learning

The Bulding

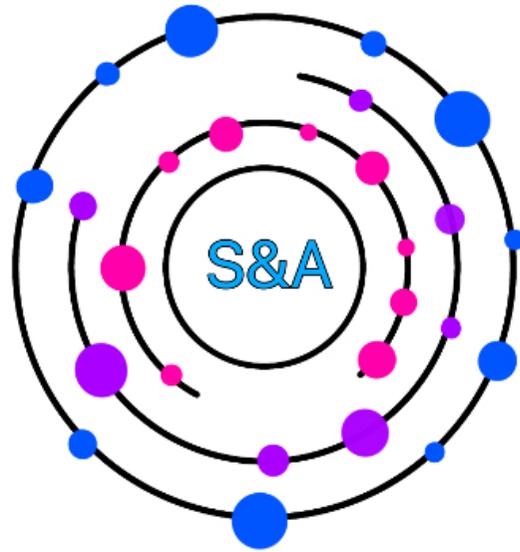

- The Bulding is a tall strucuture
- The shape is a twisted rectangle

Timetables

- School starts at 8:00
- They only have afternoon school on Monday and Friday so they can do other activities

High tech School

Our Logo

Reception Desk/Entry

- Students go in and collect personal ID cards with their plan for the day
- They then go to their lockers and collect their laptops or iPads

Cafeteria

- The students then go through the cafeteria
- They can eat something (anytime they want) or go directly to their class

Learnstudios

- The children then go to their classroom in which they can study. They sit in comfortable chairs formed like balls

Learning

- The Students have a different Project every week
- The Teachers walk around and help the Students
- While the students are working they get Feedback from the Teachers

Common rooms

- The children can also go to the common room which is like a lounge.
- Here they can meet with friends and hangout

Movie room

- They can watch movies in here, all the movies come in 4-D
- They can watch any type of movie they want.

Sports room

The children learn
different sports every day

Holidays

- The children have three holidays in a year
- They have one in Summer, one in Winter, and one in Spring
- A holiday lasts for 4 weeks

THANK

Thank You

YOU

- Thank you for taking your time we hope you enjoyed the Presentation
- If you have any questions feel free to ask
