A decorative graphic on the left side of the page, consisting of a network of light blue lines and circles that resemble a circuit board or a neural network. The lines are vertical and horizontal, with some diagonal connections, and the circles are small and white with blue outlines.

JUAD SCHOOL AND STATION

By Julian and Advait

Designed by
Julian

OUR LOGO

PORTRAIT

- ❖ The JUAD school and station is in outer space. It is a place for students to learn about: technology through experiments, languages, cooking, fighting using laser swords and history.
- ❖ The students will receive a portal chip and an oxygen mask. They can use these to reach school on their flying hoverboards. The portal chip will allow the students to enter the school and classroom.
- ❖ They will have two weeks of school and followed by one week holiday. They will sleep and eat in school, they have to cook on their own.
- ❖ Thanks to this system they learn to be independent.

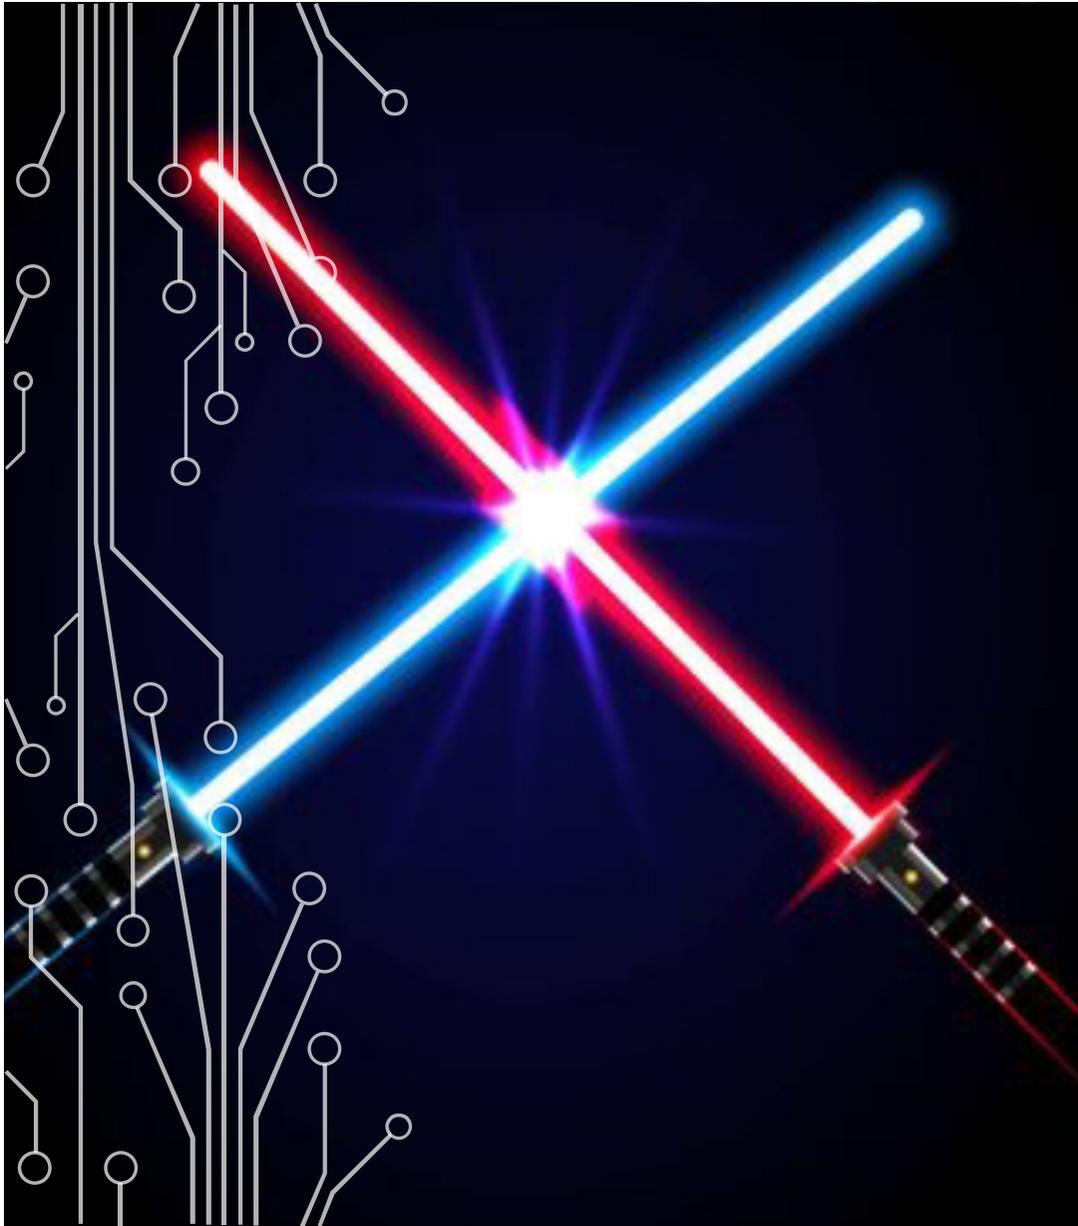

THE BUILDING

- ❖ The school building is a big J and A that are joined together with a bridge.
- ❖ The outside is made of unbreakable rainbow coloured glass and the walls are made out of black glass that can also not break. The building was made by two super smart architects: Advait and Julian.
- ❖ Students cannot enter the bridges that connect the two structures.

THE TIMETABLE

Time	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
07:00-07:55	Fighting	3 languages	Astronomy	Extra sleep	Extra sleep	Extra sleep	Free choice
08:00-08:55	Star wars	Star wars	Fighting	3 languages	Star wars	Star wars	Free choice
09:00-09:55	Technology	Technology	Technology	Technology	Fighting	3 languages	Free choice

Vr time

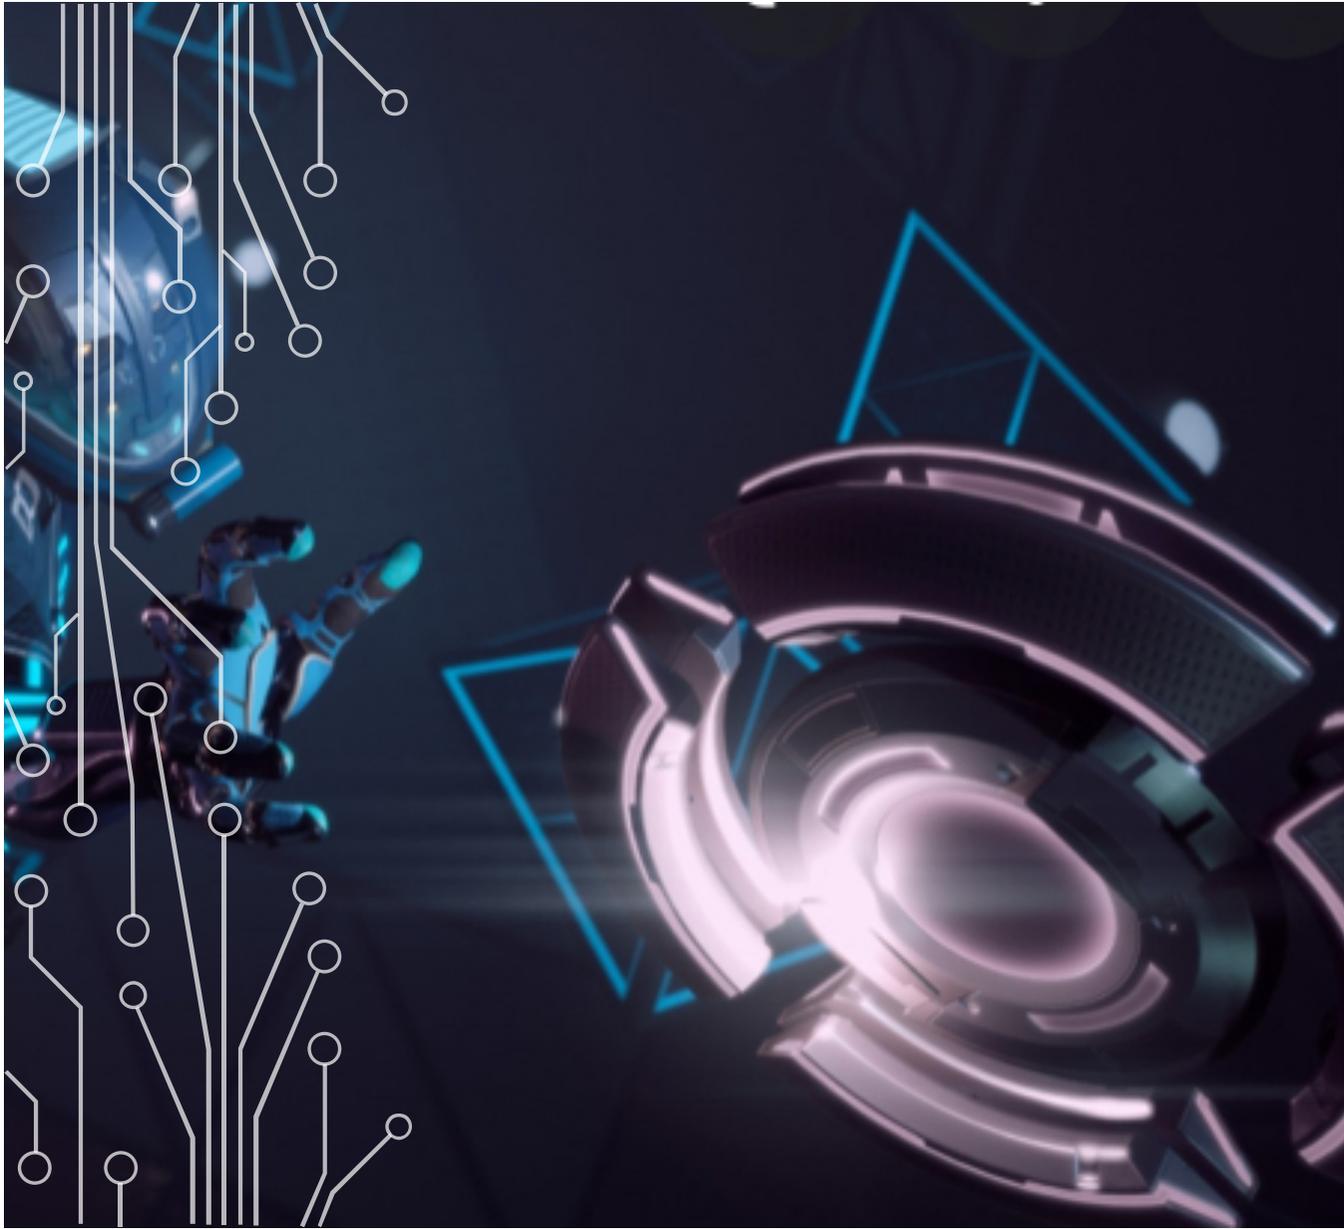

ROOM 1: FIGHTING

- ❖ In this room students learn self-defence.
- ❖ They can choose how to fight with laser swords, martial arts, kung-fu etc.

ROOM 2: STAR WARS

- ❖ Here they learn about Star wars, because this school is based on Star wars.
- ❖ They can learn by reading books or watching the movies in the movie room.

ROOM 3: VIRTUAL REALITY

- ❖ In the Virtual reality room students can choose what game they want and they will get in the game room with the help of their portal chip.
- ❖ The VR specs will immediately appear on their head and the controllers in their hands

ROOM 4: KITCHEN AND DINING AREA

- ❖ Here students help prepare the meals and eat.
- ❖ There are big tables and a very big kitchen with many varieties of food.

ROOM 5: DORM ROOMS

- ❖ This is where the students can sleep when they are in school.
- ❖ These are magic beds. The students can choose how it looks and feels like.

ROOM 6: MOVIE ROOM

- ❖ Here students watch movies. Sometimes they use it to watch Star Wars when they are learning about it.
- ❖ It is a big comfort zone.
- ❖ They can choose if they want to study here.

ROOM 7: THE TECHNOLOGY ROOM

- ❖ Here all students can experiment and invent new things.
- ❖ They can also fix their broken things and make it even better.

ROOM 8: REAL SCHOOL

- ❖ Here the students have to select and learn 3 languages.
- ❖ They will also learn Astronomy and about the Universe.
- ❖ If they want to, they can also choose to learn other subjects like maths, history or geography.

ROOM 9: STORAGE ROOM

- ❖ All the food is kept here.
- ❖ There are also private lockers for each student.
- ❖ There are bathrooms in the students locker

THANK
YOU
